

EFTCO Cleaning Codes Revision 31 – 01-05-2021

EFTCO Board with the approval of 2021 EFTCO Annual Meeting (online) has decided to update the EFTCO Codes for the usage of Tank Cleaning documentation with the EFTCO Cleaning Document.

The following changes are valid as from 1st May 2021:

🔍 adding a `Guideline` for all codes

Each code was supplemented with a guideline to clearly define the content of the code.

🔍 adding new codes

Following codes have been added.

C82	Peracetic acid	
E17	Low pressure cleaning	
E31	Drying with air at ambient Temperature	(formerly P31)
E95	Livery/External Wash	(new name)
P21	Rinsing	
P70	Tipper or Trailer cleaning	} Only valid for the usage by existing and approved members tank cleaning stations
P71	Refrigerated truck cleaning	
P72	IBC cleaning	

Codes P70, P71 & P72 are valid for the usage of approved member tank cleaning stations and not intended for the use by cleaning locations exclusively engage with the Trailer, Tipper, IBC and Refrigerated trailer cleaning.

🔍 deleting codes

Following codes have been deleted

P02	Cold (T=ambient) water spin in a complete cleaning cycle
P31	Drying with air at ambient Temperature (now E31)

🔍 renumbering existing code

For a more meaningful grouping in the correct group, the following codes have been regrouped from F (Food) to T (Test) and remain valid for Food, Feed and Chemicals.

F60	Turbidity measurement	→	T40
F61	Conductivity measurement	→	T41
F62	ATP measurement	→	T42
F63	pH-value measurement	→	T43
F64	Membrane filter test	→	T44
F65	Allergen test	→	T45
