

Inhouse-Exhibition Conference 30th May 2024

The European Federation of Tank Cleaning Organisations (EFTCO) celebrates the 25th anniversary in 2024 with an open house „Inhouse-Exhibition Conference“ 30th May 2024 in Brussels.

We invite to join the Inhouse-Exhibition Conference with our partners and exhibitors and to exchange news within the tank cleaning industry. The conference is complemented by a wide range of interesting topics from our speakers (see page 2).

The EFTCO Inhouse-Exhibition Conference will take place 30th May 2024 as from 9am at

THE PRESIDENT BRUSSELS HOTEL room « Woluwe »
Boulevard du Roi Albert II, 44 - 1000 Bruxelles
Koning Albert II-laan, 44 - 1000 Brussel
www.presidentbrusselshotel.be

The Inhouse-Exhibition Conference is organized in close cooperation with our partner exhibitors and sponsors.

Water reuse in the tank cleaning sector: past, present and future

17:00

Open End

Since 1947, Gröninger Cleaning Systems has been a global leader in designing, building, and maintaining tank cleaning systems for logistics providers. From custom solutions to turnkey projects and renovations, Gröninger offers high-quality, eco-friendly systems that prioritize efficiency and sustainability. Plus, with Gröninger, there is ongoing service and support even after the project is complete.

INDUSTRIAL WASHING PLANTS – TANK AND ISOTANK HEATING SYSTEMS

CTW Cleaning Systems is THE reference when it comes to developing Tank Cleaning, IBC Cleaning and Tank Heating installations. More than 40 years of experience and innovation has led to the highest standards when it comes to user friendliness, automation and sustainability.

"Your partner for wastewater treatment and reuse"

A family business with 100 years of experience
The STOCKMEIER Group comprises companies that are active in the distribution and production of cleaning agents for tank cleaning and chemical services. A total of over 26,000 products are traded and produced. This supplies more than 30,000 customers worldwide. With over 50 locations in 14 countries, we are very close to many of our partners.

As an environmental technology company, sera has a wide product range that offers the right solutions worldwide for many areas of application such as water and waste water treatment, disinfection or the exact and resource-saving dosing and feeding of chemicals and liquids. In addition, sera offers various complete and partial solutions for the optimal industrial cleaning of surfaces, containers, tanks and much more.

WVT Industries is a manufacturer of tank cleaning chemicals and has been the international partner to all types of tank container and tanker truck cleaning facilities for 25 years. From a well-known formula to an application tailored to your company's requirements, we offer the right solution.
